Call to schedule
503-653-5332

- MCAM's training is always custom, one instructor, one company in our classroom at a time. This provides you with a tailored training experience that allows us to focus on your specific training goals. We recommend using your parts and designs instead of samples but we also have a very large and diverse library of training examples.
- We are happy to sign NDA's for training on proprietary part designs.
- Our classroom at MCAM, Oregon City has (6) training systems, all loaded with the latest version of software. We have an overhead projector for the instructor.
- We also provide training on-site for up to (6) people per session.
- As of July 1, 2013 our current rate is \$150/ Hr - Flat rate (not per person) Max (6) people.
- Classes are 6 hours with a 1 hour lunch break. 1st session is 9am, lunch at noon, 2nd session is 1pm to 4pm. For On-Site, these hours can be adjusted.

Streamingteacher® - Click here to visit Streamingteacher.com

We utilize Streamingteacher® courseware exclusively for the **Mastercam®** study materials. Each student must have Streamingteacher® subscription in order to attend our custom classes. Streamingteacher® provides over 150 hours of classroom study material, examples, projects and sample files that are utilized during our training and are recommended for continued learning after the completion of our class at MCAM.

GoToMeeting® Training/Consulting

GoToMeeting® training/ consulting is available and utilized frequently here at MCAM. We provide this at the same hourly rate as custom training. This allows you to connect with us for custom training and consulting without the added expense of travel. (High Speed Internet Connection Required)
